

Full-stack developer bridging mechatronics and code. I build responsive web applications and automate business workflows end to end — from concept and architecture through deployment — with an engineer's discipline for data models, APIs, and clean handoffs.

EXPERIENCE

Founder & Full-Stack Developer — G-Stack

Feb 2026 – May 2026

- Designed, built, and shipped the Elevate Studio marketing website — responsive, animated, and conversion-focused.
- Built the G-Stack client portal: authentication, project tracking, and communication in one dashboard.
- Delivered a product landing page with lead capture wired into automated email workflows.

IoT Intern — Samsung Innovation Campus

Aug 2025 – Oct 2025

- Completed the intensive IoT track covering embedded systems, sensors, and connected devices.
- Built a smart office system linking hardware sensors to live dashboards over MQTT.
- Practiced structured prototyping: requirements, wiring, firmware, and cloud integration.

SELECTED PROJECTS

GVMT Marketplace + Admin

Next.js · TypeScript · MongoDB · Tailwind CSS

Full-stack marketplace with a dedicated admin dashboard: listings, moderation, and real-time order state.

GStack Client Portal

Next.js · Node.js · Nodemailer · MongoDB

Client-facing portal for project tracking and communication, with role-based access and automated email notifications.

Elevate Studio Website

Next.js · Tailwind CSS

Marketing site for Elevate Studio — responsive layouts, scroll-driven reveals, and a lead-capture pipeline.

IoT Smart Office System

Raspberry Pi · MQTT · Python · Blynk

Sensor network streaming environmental data over MQTT to a live monitoring dashboard.

EDUCATION

B.Sc. Mechatronics Engineering — Ain Shams University

2024 – 2028 (expected)

SKILLS

Frontend	Next.js, React, TypeScript, Tailwind CSS	Backend	Node.js, MongoDB, REST APIs, Nodemailer
Embedded & IoT	C/C++, ESP32, MQTT, KNX, Raspberry Pi, Python, Blynk	Tools & Platforms	Git / GitHub, Vercel, Expo / React Native, Electron

CERTIFICATIONS

Embedded C: Hardware Essentials and Device Driver Development — MaharaTech – ITIMoooca 2025

Intro to IoT — MaharaTech – ITIMoooca 2025

C Programming — MaharaTech – ITIMoooca 2025

Basics of KNX — Aviation – Ain Shams University 2024

IoT Intern — Samsung Innovation Campus 2025

LANGUAGES

Arabic — Native

English — Professional working

Italian — Elementary
